

SUMMER ENRICHMENT OPPORTUNITY AT LELAND HIGH SCHOOL!!

Math Enrichment Summer Program, a WASC accredited and California Standard based, is excited to announce **Leland High School** will host elementary, middle students for a summertime enrichment program. This program is designed to give students an opportunity to preview their future math and language course, and will provide them with a solid foundation and the confidence to excel when they take the course next school year.

The program will take place June 15 – July 24, Monday through Friday, from 9:00 AM to 3:00 PM. Tuition is \$850 and register before May 1st to receive a \$50.00 Early Registration Discount. The tuition comes out to under \$5.00 an hour. We have payment plan option. Last summer, Math Enrichment assisted hundreds of students improve their math, language arts and writing skills with exceptional results. All teachers hold a California Credential. Each class will have one to three teaching assistants in each class. The ratio is 10 to 1 in each class.

We will provide FREE transportation from Sobrato High School each morning. The bus will leave at 8:10 AM and return at 3:45 PM. We will have staff members on the bus each day.

CURRENT 6TH GRADERS: Sign up for the **7th grade English/Math Combo Class**. In this class, students will spend half the day learning key Pre-Algebra or Algebra concepts and the other half working on developing superior writing skills. In addition, students will have the opportunity to fine-tune their typing and other basic computer skills on new Apple Laptops. Every student who attends the 7th grade combo class will come back to Charter School next fall as a better, more well rounded student.

CURRENT 7TH GRADERS: Sign up for the **ALGEBRA CLASS**. This class will give all students the opportunity to develop a solid foundation in the most important of all math classes. Excellent algebra skills are the key to success in any upper level high school math class, and our students spend the summer familiarizing themselves with key concepts in order to develop a deeper, more complete understanding when they take Algebra next school year. **This class is designed to build a solid long-term foundation.**

CURRENT 8TH GRADERS: Sign up for whatever class you will be taking as a 9th grader (**Algebra or Geometry**). Taking these classes over the summer will be excellent preparation for the upcoming school year. High school can be a major adjustment, both academically and socially, for incoming freshmen. Math Enrichment can help ease that transition, at least in math, and allow you soon to be 9th graders to focus more energy on the other challenges high school can create. **If your 8th grade child earns an “A or B” this summer we will recommend them to a higher class in 9th grade.**

The staff at Math Enrichment has been working diligently to provide our students with the highest quality summer enrichment program possible. We believe that students who work hard should also play hard, so we have planned some additional exciting activities and an end of the year celebration banquet at Dave & Buster's in Milpitas. Additionally, we will be holding a raffle at the end of the summer, where students can win great prizes, including Nintendo Wiis, Apple iPods, Gift Cards, HDTV and Apple Laptop.

Sign-ups have already begun, so visit our website at **www.mathenrichment.net** to reserve your spot today or call (408) 667-9277 find out more about Math Enrichment!!
